M3 2370 LED

An excellent all around duty light. The M3 2370 LED uses a 3 watt Luxeon module for brightness that rivals incandescents. The hard aluminum body has a knurled grip for a secure handle. It's also resistant to corrosion and extreme temperatures. And the tactile response click tail switch turns it on for constant light or momentary blink. The M3 2370 LED is powered by 3 CR123 lithium cells (included) and packaged with a free Cordura holster with back-up battery pouch.

**Minimum Pack 6 ea.
Packaged Weight: 12.0 oz.**
