Submersible 

StealthLite™ 2400 Photoluminescent

Same features as the StealthLite 2400 but outfitted with a lens ring that emits a bright glow in the dark. The new generation photoluminescent material in the plastic absorbs the energy from any light source – fluorescent lights, the sun, or even the flashlight's own beam. No more fumbling in the dark for your flashlight. It is submersible to 500 feet and powered by 4 AA alkaline cells (included).

Minimum Pack 6 ea.
Packaged Weight: 8.1 oz.
