MityLite™ 2440 LED Photoluminescent Body Flashlight

The ideal compact emergency flashlight during a blackout comes standard in our [2480 Emergency Lighting Station](#). The 2440PLB Flashlight has a tough resin body that emits a bright glow in the dark. The new generation photoluminescent material in the plastic absorbs the energy from any light source, even fluorescent lights. Use the 5-LED cluster, powered by 4 AA alkaline cells (included), to light your way to safety. The MityLite™ 2440PLB comes with a tail switch for easy, one hand operation.

Minimum Pack 6 ea.
